humans are apes monkeys pdf

Before humans went into space, several other animals were launched into space, including numerous other primates, so that scientists could investigate the biological effects of space travel. The United States launched flights containing primate passengers primarily between 1948-1961 with one flight in 1969 and one in 1985. France launched two monkey-carrying flights in 1967.

Monkeys and apes in space - Wikipedia

Traditionally, humans were considered neither apes nor great apes, but today they are recognized as having emerged deep in the phylogenetic tree of apes.. Thus, there are at least three common, or traditional, uses of the term "ape": non-specialists may not distinguish between "monkeys" and "apes", that is, they may use the two terms interchangeably; or they may use "ape" for any tailless ...
