learning city development have tended to be Eurocentric, reflecting the efforts put in by the European Commission to extend lifelong learning concepts into cities and regions. More recently the centre of gravity has moved to Asia, particularly China and South Korea, where there is an expanded vision of the scope and range of learning city activity.

LEARNING CITY DIMENSIONS - the RSA

How Cities of Learning works CofL mobilises the formal, non-formal and informal assets and resources in a city in order to close gaps in creativity, opportunity and outcomes. It brings together learners, learning, work and civic institutions (schools, colleges, employers, training providers, charities, local authorities, libraries,

inhabit the city is to constantly confront the unknown, and to assemble from and through it a set of coherent lifeway strategies. At stake in the constant process of urban learning, McFarlane suggests, is the possibility that the actual city might become something else - the possible city, the imagined city, or the more just and equitable city.
