In order to understand interpersonal communication, we must understand how interpersonal communication functions to meet our needs and goals and how our interpersonal communication connects to larger social and cultural systems.

### **Interpersonal Communication Processes - lardbucket**

An interpersonal relationship is a strong, deep, or close association or acquaintance between two or more people that may range in duration from brief to enduring. This association may be based on inference, love, solidarity, support, regular business interactions, or some other type of social connection or commitment. Interpersonal relationships thrive through equitable and reciprocal ...

Interpersonal Communication is "The complex process through which people produce, interpret, and coordinate messages to create shared meanings, achieve social goals, manage their personal identities, and carry out their relationships" (Verderber, 2016). This is the everyday communication we engage in with our friends, loved ones, work colleagues, or others we encounter.

The Southern Poverty Law Center gathered hundreds of stories of everyday bigotry from people across the United States. They told their stories through e-mail, personal interviews and at roundtable discussions in four cities. People spoke about encounters in stores and restaurants, on streets and in schools. No matter the location or relationship, the stories echo each other.

Chapter 4 Nonverbal Communication. When we think about communication, we most often focus on how we exchange information using words. While verbal communication is important, humans relied on nonverbal communication for thousands of years before we developed the capability to communicate with words.
