The ASA publishes or co-publishes 17 journals focusing on statistics in business and economics, biopharmaceutical research, agriculture, biology, the environment, sports, surveys, and so much more.

Publications - American Statistical Association (ASA)

Statistics is a branch of mathematics dealing with data collection, organization, analysis, interpretation and presentation. In applying statistics to, for example, a scientific, industrial, or social problem, it is conventional to begin with a statistical population or a statistical model process to be studied. Populations can be diverse topics such as "all people living in a country" or ...

UC Application - Message from the system

I am currently working to develop a data science program in University of Nebraska at Omaha and teaching introduction to data science. While talking to the business community around Omaha, we got a nice feedback and everyone indicated the necessity of such a program.

Data science: how is it different to statistics ? Â« IMS

The history of statistics in the modern sense dates from the mid-17th century, with the term statistics itself coined in 1749 in German, although there have been changes to the interpretation of the word over time. The development of statistics is intimately connected on the one hand with the development of sovereign states, particularly European states following the Peace of Westphalia (1648 ...
