

step to the stars pdf

Step to the Stars is a juvenile science fiction novel about the construction of the first space station. This is hard science fiction, using the best technological ideas of 1954 to tell an adventure story of man's exploration of space. Step to the Stars was followed by two sequels: Mission to the Moon and Moon of Mutiny.

Timed to coincide with the opening of an exhibition on space and Antarctica, Beth is presenting the story â€œStep to the stars â€“ our future in space starts on Earthâ€•. The narrative is featured in the WhiteSpace exhibition at the Times Science festival in Cheltenham, UK, being held 7â€“12 June.

Space in Images - 2016 - 06 - Step to the stars

"Step to the Stars" originally from 1954, is a classic sci-fi novel to me. It is well written, covers an interesting topic, and has a good yarn. The set up is the building of the first orbiting spacestation. There are basically two major factions on Earth, the Combine (China/Asia nations) and the USA.
