Psychology is the science of behavior and mind, including conscious and unconscious phenomena, as well as feeling and thought. It is an academic discipline of immense scope and diverse interests that, when taken together, seek an understanding of the emergent properties of brains, and all the variety of epiphenomena they manifest. As a social science it aims to understand individuals and groups ...

Karma Q&A – a study guide. Posted on | April 13, 2018 | 1 Comment. Karma Q&A – a study guide is a newer book (2018) about the concept of Karma as it is understood and used in the Theravada branch of Buddhism. It discusses the origin of Karma and how it might have older roots than Buddhism and what the implications of this for a modern audience in the West might be.

Color psychology is the study of hues as a determinant of human behavior. Color influences perceptions that are not obvious, such as the taste of food. Colours can also enhance the effectiveness of placebos. For example, red or orange pills are generally used as stimulants. Colour can indeed influence a person; however, it is important to remember that these effects differ between people.
