### **succeeding with agile software pdf**

Dr. Jeff Sutherland is one of the inventors of the Scrum software development process. Together with Ken Schwaber, he created Scrum as a formal process at OOPSLA'95. Sutherland helped to write the Agile Manifesto in 2001. He is a writer of The Scrum Guide

### **Jeff Sutherland - Wikipedia**

Scrum is an agile framework for managing knowledge work, with an emphasis on software development. It is designed for teams of three to nine members, who break their work into actions that can be completed within timeboxed iterations, called "sprints", no longer than one month and most commonly two weeks, then track progress and re-plan in 15-minute stand-up meetings, called daily scrums.

### **Scrum (software development) - Wikipedia**

The more focused and frequent lessons learned meetings are, the more valuable they will be. Retrospectives are an agile technique that any team can use to identify opportunities for improvement in their processes, team dynamics, and decision-making as well as areas for continued excellence.

As you may now, I am working on a new book, which will be called Succeeding with Agile. I recently finished writing a chapter for it on the impact of the human resources and facilities groups on an organization that is transitioning to an Agile project management approach. While writing that chapter ...
