New Castle History And Archaeology Project

Archaeology, or archeology, is the study of human activity through the recovery and analysis of material culture. The archaeological record consists of artifacts, architecture, biofacts or ecofacts and cultural landscapes. Archaeology can be considered both a social science and a branch of the humanities. In North America archaeology is a sub-field of anthropology, while in Europe it is often ...

About us. We are an innovative and internationally recognised centre of excellence in research and teaching, devoted to the study of the past and beliefs from prehistoric times to contemporary societies.

School of History, Archaeology and Religion - Cardiff

Software archaeology or software archeology is the study of poorly documented or undocumented legacy software implementations, as part of software maintenance. Software archaeology, named by analogy with archaeology, includes the reverse engineering of software modules, and the application of a variety of tools and processes for extracting and understanding program structure and recovering ...
